

CDBL Operating Instruction : 111 – 13

30<sup>th</sup> July 2013

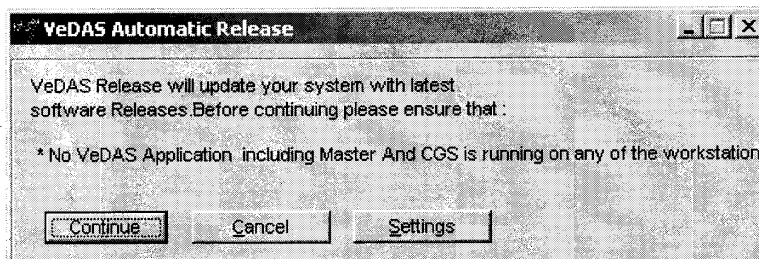

To: All Depository Participants

**New VeDAS Releases 7.7, 7.8, 7.9 & 7.10 in effect from Sunday 4<sup>th</sup> August 13**

The above releases have incorporated changes in VeDAS (Versatile Engine for Depository Accounting System) Application to include bank routing numbers as required by Bangladesh Bank and also a number of improvements in reports and functionalities.

Therefore, on 4<sup>th</sup> August 13, on running Master Application system DPs will be notified that VeDAS Release version is now 7.10 and accordingly they must update their VeDAS version to avoid disruption to their operations. **However, in case your current VeDAS Release version is not 7.6 then, DO NOT RUN Release.exe and contact CDBL for assistance.** Otherwise before updating new Releases please perform the following tasks:

1. Backup entire VeDAS folder
2. Ensure ping command output is ok with load 8000 i.e. ping 10.16.1.3 –l 8000
3. Check Antivirus and Firewall protection and allow temporarily updating VeDAS on running Release.exe to update to version 7.10
4. After completing the 3 steps above then close 'Master Application' and 'CGS' and execute Release.exe from C:\VeDAS\_XXXXX\EXE folder and click on 'Continue' button to update Releases online as shown below:

Please contact CDBL if you encounter any errors while updating the new VeDAS Releases.

Changes incorporated in the new Releases are listed in the paper enclosed herewith. Please take good note of them so that you can avail of the benefits of improved reports and functionalities.
